

Kida Bohman

UX & UI Designer

 [Portfolio](#)

 Stockholm  (+46) 76-1693633  [Email](#)  [Linkedin](#)

I strive to make the internet available, as everyone should have the opportunity to use the internet in a smooth way.

My favourite task is prototyping – from creating lo-fi wireframes to interactive prototypes.

Studies

UX design and Requirements analytics / Chas Academy

AUG 2020 - JULY 2022, HÄGERSTEN

Chas Academy is a higher vocational university in Stockholm. The education gives one the knowledge and conditions to work as a UX designer and requirements analyst. The school has, amongst other things, taught me about:

- Design processes
- Interview techniques
- Agile working methods
- How to create interactive prototypes.

Everything to improve the user experience and make the web accessible to everyone, of course including people with disabilities.

Aesthetics - Media / International IT College of Sweden

2015 - 2018, STOCKHOLM

High school studies (Swedish “gymnasium”) with a focus on Aesthetics and Media. The media lessons taught me a lot, for instance about graphic design. I make sure to consider the things I learnt there even today while working with UX.

Work experience

Visuals and UX Designer / Bantaba

SEP 2021 – NOW, STOCKHOLM

Bantaba is Africa's biggest startup-diaspora community, and I got the pleasure to work closely with the CEO, Content Strategist, and developers. As the sole designer in the team, I had a multitude of tasks such as:

- Designed and coded emails
 - Created social media designs
 - Designed the landing page and parts of the platform
 - Did user research on the platform and worked on improving it
-

Awards

Cambridge Advanced English / Diplom

JUNE 2018

Done and received a high grade on the official Cambridge test, which is a certificate that shows that I speak fluent English.

IT-award / Diplom

JUNE 2017

At my high school ("gymnasium") I was chosen as the best IT student and received a diploma.
